*General Operational
Matters - Germany*

While we certainly have no objection to the remuneration which you have proposed for CAMISE, and agree with you concerning our obligation to evacuate her under PASIFINE conditions, the present status of this operation is not at all clear to us. There have been no new operational reports on CAMISE for more than a year, and the last production which we received from her was dated 20 July 1948 (MOB-6869). It had therefore appeared that the CAMISE operation was dormant, with CAMISE herself remaining a very casual contact of BOB. Your resubmission of the project outline which assigns specific objectives and targets indicates however, that you consider CAMISE an active agent. If this is indeed the case and you have concrete, long-range plans for her, they should be spelled out in detail, and regular progress reports submitted. Having to rely on project outlines which have been re-mimeographed without comment from the previous period is a very unsatisfactory means of following an operation from this distance. Please forward a complete and frank discussion of the CAMISE operation, including current status, future plans, details of how often she is contacted, how she is utilized at present, etc. Will you also fill out a personal record form 61-67 for her, available personnel on her date back to 1 July 1948 and cover only the period to the end of the war. In other words, what we should like is a fresh, up-to-date picture of the entire operation.
